PROJECTS

Food Munch

<http://pratyangira.ccbp.tech>

- Developed a fully responsive website offering a comprehensive list of food items and detailed information about each item using HTML, CSS, and Bootstrap.
- Enhanced user experience by implementing product videos and utilizing Bootstrap components for a visually appealing design.
- Optimized website structure with HTML elements to ensure seamless navigation and accessibility.

Todos Application

<http://buildyourtodo.ccbp.tech>

- Designed an intuitive task management solution using HTML, CSS, JavaScript, and Bootstrap for streamlined task organization.
- Implemented CRUD operations with JavaScript event listeners and dynamic UI updates for seamless task management.
- Ensured secure task persistence with local storage methods, providing reliable access to tasks.

Wikipedia Search Application

<http://srihanuman.ccbp.tech>

- Developed a custom search application to deliver curated Wikipedia results using HTML, CSS, JavaScript, REST API calls, and Bootstrap.
- Created a responsive design that adapts to any device, ensuring accessibility and user satisfaction.
- Implemented asynchronous fetch GET HTTP API calls for seamless data retrieval and enhanced user experience.
